

AMERICA FLIES

Mr. President,
I support
American
aviation jobs.

And you should, too!

Never has our
industry been under
such direct attack.

From all angles, the EPA,
FAA and the President himself seem to be doing
everything they can to destroy our industry, shame our customers,
impose taxes and fees and send manufacturing overseas.

We cannot sit idly by and allow this to happen.

It's time he hears our stories. We all know they are out there. We know of the small plane that helped a member of the military get home for the birth of a child. We know we have helped transport a life-saving organ, and we know the men and women working hard on the line have been able to create better lives for their families through the job opportunities created by the industry. Be specific. We will collect those and distribute them, first to the President, and then across the country.

STORY

Together, we can make a difference. The President needs to know that not just Kansas, but the entire nation, relies on the aviation industry every day. Share your stories, donate if you can, sign the petition, and encourage others to do the same.
